

From the American Community Survey: 1999

Population and Housing Profile: Lake County, Illinois

NOTES: The population estimates in this profile are for people living in households and group quarters.

In the narrative profile below, if one sample estimate is larger than another, it does not necessarily mean that the same holds for their true values for the entire population. These estimates are derived from a sample of housing units and measure the true values with a degree of uncertainty. In the Profiles found at www.census.gov/acs/www/index_c.htm, this uncertainty is represented by the 90 percent confidence interval given for each estimate. For further information on confidence intervals see the Accuracy of the Data documents at www.census.gov/acs/www/index_b.htm.

Caution should be used when comparing data by race from previous years with those for 1999 due to the Census Bureau's implementation of the October 1997 revised standards for data on race and ethnicity. For the 1999 data, respondents may report one or more races and there are seven (American Indian and Alaska Native, Asian, Black or African American, Native Hawaiian and Other Pacific Islander, White, some other race, and two or more races) instead of five racial tabulation categories. The two or more races category includes all respondents who reported more than one race. See the methodology section for more details regarding these changes.

These data are preliminary and should not be used for official purposes.

POPULATION OF Lake County: In 1999, Lake County had a population of 617,975. The median age was 34.2 years. Twenty-eight percent were under 18 years and 9 percent were 65 or older. There was an equal amount of women and men.

Source: Bureau of the Census, American Community Survey, 1999

In 1999, 5 percent of the housing units in Lake County were vacant. Twenty-four percent of the vacant units were for seasonal, recreational, or occasional use. Nineteen percent of the housing units were built since 1990. One hundred percent of Lake County housing units had complete plumbing and 100 percent had complete kitchen facilities.

CHARACTERISTICS OF OCCUPANTS: The occupied units consisted of 165,892 that were owned by residents and 48,847 that were rented. Two percent of the households occupying these units reported not having telephone service in their home and 4 percent did not have access to a car, truck, or van for private use. Multi-vehicle households were not rare. Fifty percent had two vehicles and another 19 percent had three or more.

HOUSING COSTS: Thirty-six percent of owners with mortgages in Lake County spent less than 20 percent of their household income on housing; 27 percent spent 30 percent or more on housing. Among renters, 33 percent spent less than 20 percent of their household income on rent and 39 percent spent 30 percent or more on rent. The median gross rent was \$728 per month.
